

2024

Qualtrics Summary

NORTHERN ONTARIO
ACADEMIC MEDICINE
ASSOCIATION

LEG Annual Report Comparative Highlights

The Northern Ontario Academic Medicine Association (NOAMA) Academic Funding Plan (AFP) aims to enhance the capacity of physicians to deliver both clinical services and academic activities in an integrated manner. To support this initiative, Local Education Groups (LEGs) have been established across Northern Ontario. A LEG consists of physician clinical faculty members who work together to assume responsibility for significant, identifiable components of the Northern Ontario School of Medicine University's (NOSM U) academic mandate.

To facilitate the distribution of funding for scholarly activities, the NOAMA Board has implemented a LEG Funding Formula. This process is supported by the use of Qualtrics, which helps capture the academic activities taking place across Northern Ontario.

The Qualtrics platform plays a vital role in collecting and reporting data on physician activity, ensuring that our AFP mandate is met and promoting the development of coalitions within the healthcare sector across Northern Ontario. The LEG framework includes a program logic model that outlines specific activities and indicators associated with each LEG.

This reporting platform has enabled NOAMA to track scholarly activities, research and innovation, and professional development (PD) within each LEG. The following tables provide a cumulative summary of the data collected through the platform for the years 2022, 2023, and 2024.

Develop Research Capacity

Develop and participate in LEG research networks and/or regional collaboration

Increase documented clinical innovation/quality improvement activities

Conduct community engaged scholarships and increase funded research conducted by LEG members

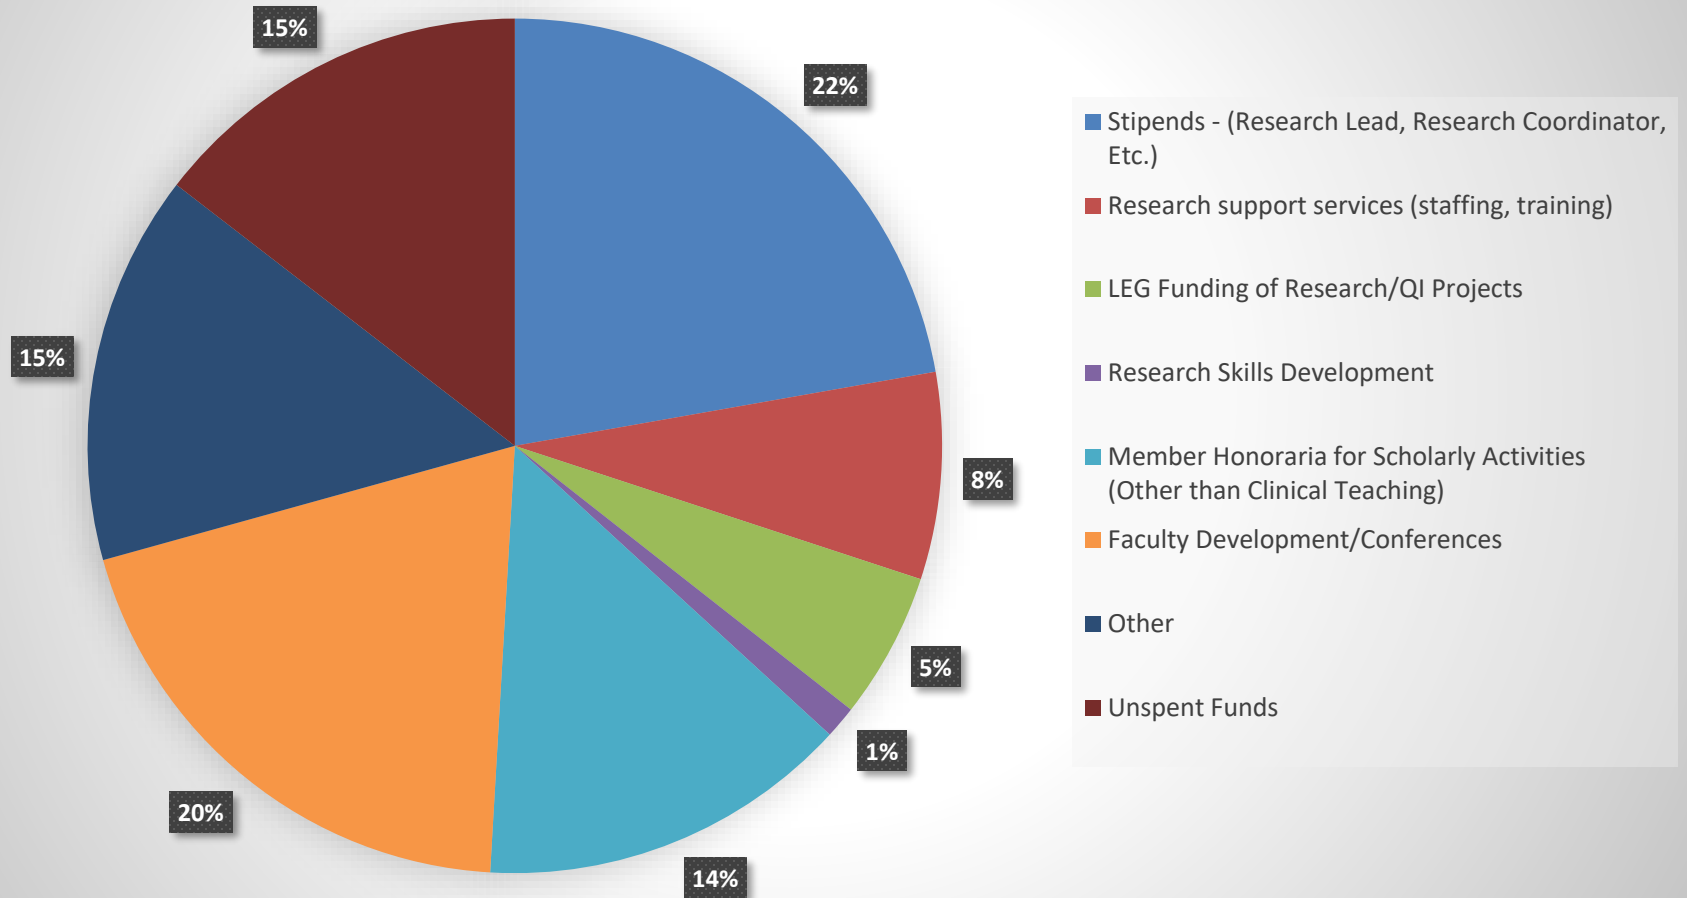

Develop Physician Leaders

Faculty Development

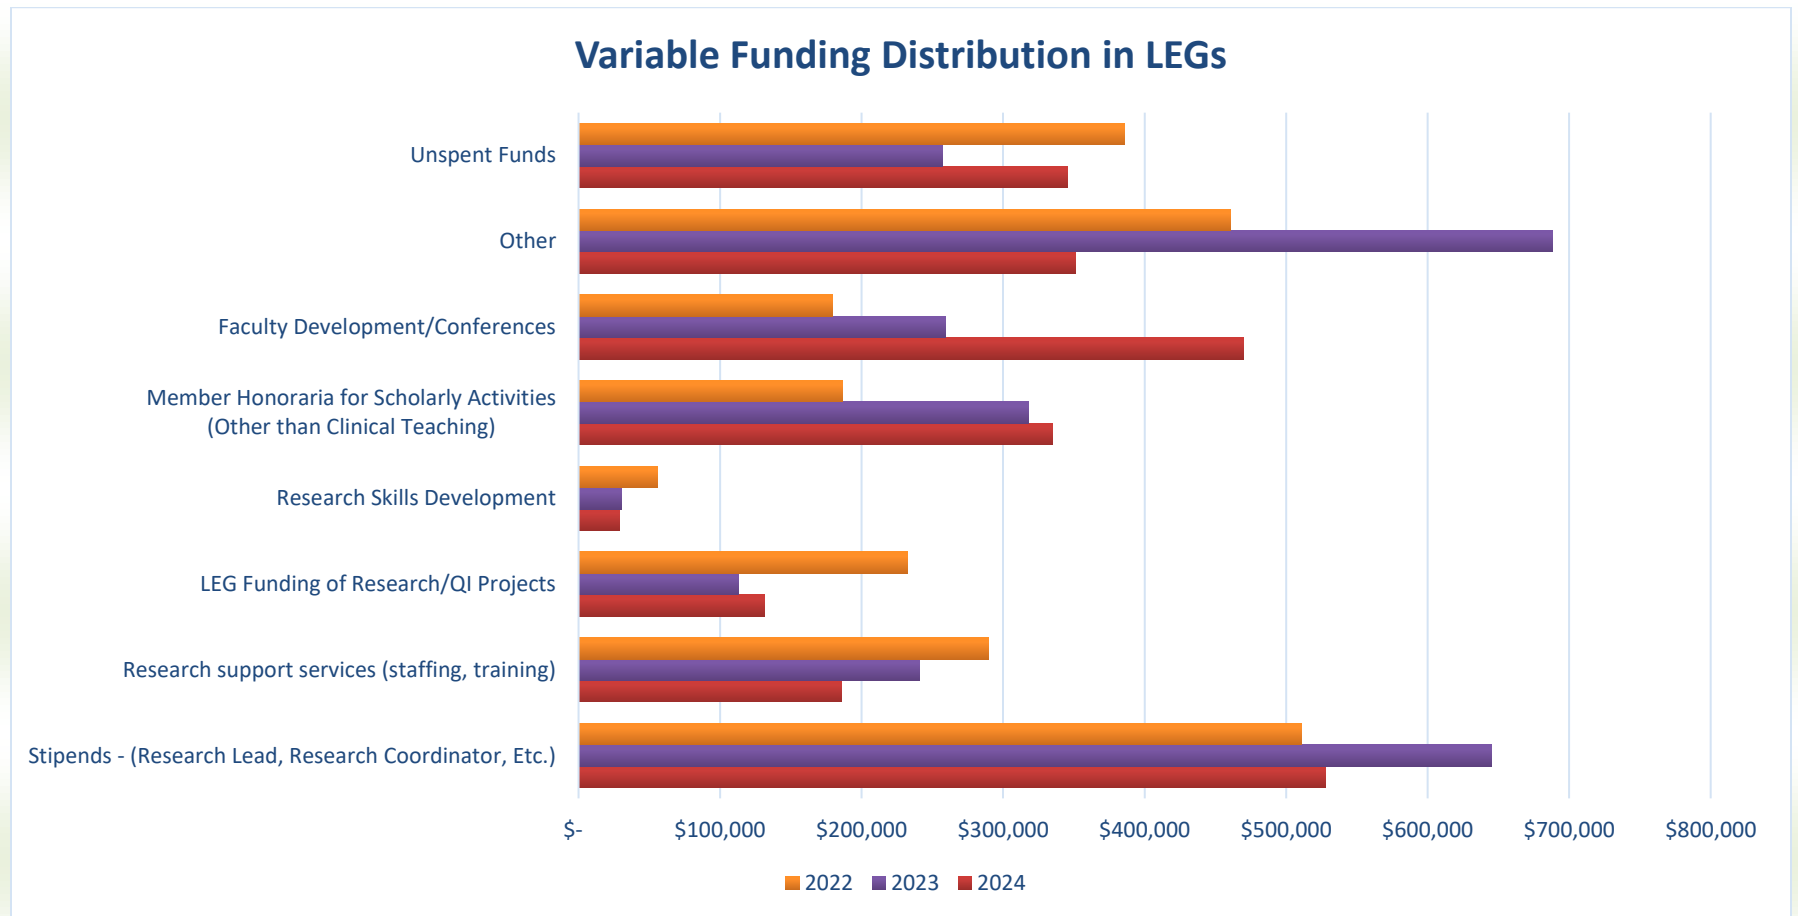

2024 Variable Funding Distribution in LEGs

Variable Funding: Enhanced Scholarly Activity and Research

Based on input from the LEGs and the results of the CRaNHHR LEG evaluation, NOAMA will continue to support LEGs in the activities related to planning, development, and establishment of support infrastructure related to enhanced scholarly activity and research.

There is \$2,500,000 available for distribution. The amount will be a distribution to the interested LEGs based on membership. To receive this funding, LEGs must sign off and return the LEG Variable Funding Accountability Report.

DEFINING SCHOLARLY ACTIVITY

In Northern Ontario, we broadly define Scholarly Activity as the pursuit of medical knowledge (including medical education knowledge) to improve the health of those in our Northern Ontario communities. Typically this pursuit would be related to the individual's area of medicine or expertise with the intention to benefit the community through personal or learner achievements.

Scholarly Activity occurs within the context of our clinical, academic and governance structures, where the focus of our endeavors is our social accountability and community engagement. A range of activities can be systematically undertaken to substantiate our efforts to gain a holistic understanding. These activities include the discovery, integration, application and dissemination of knowledge (Boyer 1990).

The quality of our scholarly work can be assessed in terms of

- the clarity of the goal;
- the adequacy of preparation;
- the soundness of methodology;
- the consideration of ethical issues;
- the impact of the findings;
- the clarity of communication of those findings; and
- the critical reflection upon the work done to prepare for future work (Glassick 2000).

Within our Distributed Model of Community-Engaged Medical Education at NOSM U, we encourage grassroots discovery, innovation and programs relevant to Northern Ontario communities. While we will utilize Boyer's (1990) categories of Scholarly Activity or Scholarship, we are not restricted to these definitions.

Discovery - Advancing Knowledge (Research)		Integration - Synthesizing Knowledge Across Disciplines		Application - Applying Existing Knowledge (Theory to Practice)		Teaching - Disseminating Medical Knowledge	
Case-Based Learnings	47	Case Studies	36	Creation of New Clinical Programs	20	Clinical Medical Learner Teaching or Other Clinical Teaching	48
Creation of Research Related Positions	17	Chart Audits	33	Curriculum Development	32	Clinical Skills Lead	30
Ethics Courses	13	Community Education Events	27	Develop and/or Deliver EBM Faculty Development	12	Community Lectures	21
Grand Rounds	35	Critical Incident Review	29	Developing E-Platform Sessions	3	Co-op Programs	9
Journal Clubs	34	Infectious Control Committees	23	Faculty Development Workshops	24	Education Sessions (S.E.S.)	30
Medical Staff Rounds	36	Leadership Coaching	22	Order Set Development	35	Local Credentialed Courses (ACLS PALS)	28
Participation in Quality / Patient Safety Committees	32	M&M Rounds	34	Program Development	28	Mentoring Undergraduate University Learners	29
Research Projects	32	MCCs	14	Quality Improvement Projects	34	Presenting Research Outcomes	21
Student Supervision	40	Occupational Health Committees	12	Review Accreditation of CEPD Events	13	RATS Sessions / Development	7
Theoretical Thought Project	2	P.A.R.T.Y. (Prevent Alcohol and Risk Related Trauma in Youth) Programs	3	PBL	24	TED Talks	4
		Participating in Planning Committees for Educational Events	24	Journal Clubs / Reviews	29	Teleconference lectures	23
